

UC Health-wide Profiles and Clinical Trials Sites

Update to UC BRAID

October 3, 2018

Deborah Spector, UCSD

Melanie Cocco, UCI

Brian Turner, UCSF

Agenda

- Introduction - what we built
- Engagement - reaping the benefits
- Analytics - progress so far
- Next Steps
- Q&A

NCATS Network Supplement Grant

Leverage work done at UCSF, with UCSD, and others to create

- UC Health Profiles
 - A ‘universe’ that includes all five UC Health schools
 - Individual search pages, campus branding, HR feeds
 - Info from PubMed, NIH Exporter and clinicaltrials.gov
- UC Clinical Trials
 - Stand-alone search site on UCBRAID.org and customized campus sites using clinicaltrials.gov data
- Cross links to showcase researchers and enrich user experience
- Launched and ‘road tested’ in first half of 2018

Demo the Products

- [UC Health-wide PI Finder \(based on Profiles\)](#)
- [UC Health-wide Clinical Trial Finder](#)

We are Now in a New Phase

All five UC Health Campuses and UC BRAID have funded this system for a year.

The key to success is **engagement**.

- Make faculty and senior leadership aware of the systems
- Make the systems invaluable to them
- Drive usage, across the board

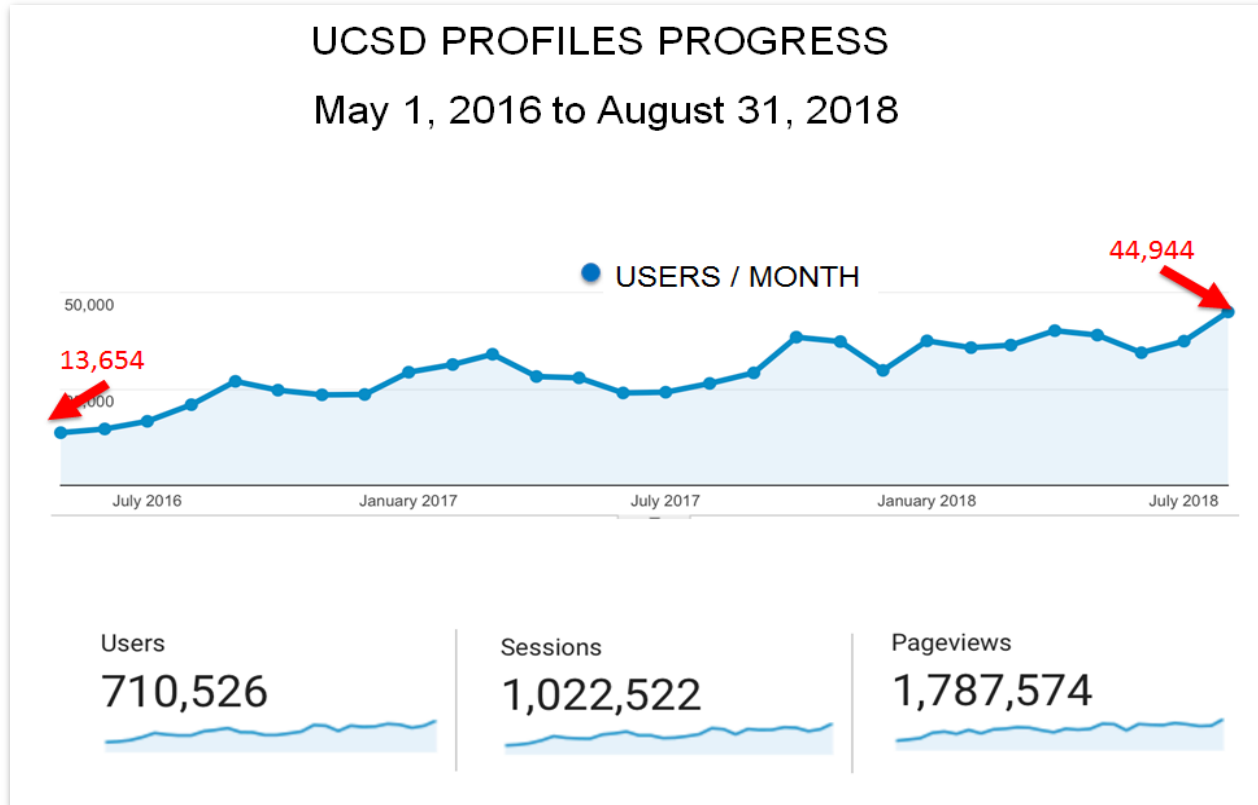

Profiles History at UCSD

- June 2011 – Identify need
- 2012 – Consideration of different Research Networking Tools
- July 2013 – Dialog with UCSF to host UCSD Profiles
- November 2013 – MOU with UCSF signed
- September 2014 – Launch Profiles
 - announcement to UCSD Health Sciences
 - IT expertise provided by UCSD Calit2

Profiles Engagement at UCSD

- 2014 to Present – E-mails and presentations given to Department Chairs and Faculty groups
- July 2015 – Add faculty, research scientists, project scientists, fellows and postdocs in Health Sciences, Engineering, SIO, Biological Sciences, and Biochemistry and Chemistry
- 2016 to Present – Expand Profiles to entire UCSD campus
 - Promote awareness and use of Profiles via e-mails – Respond promptly to problems and requests

Analytics from UCSD

Engagement Tactics at UCI

- Initial build includes School of Medicine and School of Biological Sciences
 - Faculty editing in progress
- Next goals: add adjunct faculty, research staff and postdocs
- Financially Supported by UCI ICTS/BRAID
 - Moving forward ?

Use Case: Drug Discovery Consortium

Ability to search all UC faculty by keyword in one system will be VERY useful in recruiting Industry partners.

Engagement Tactics at UCSF

Main Categories:

- Promote
 - Contests and announcements, newsletters
 - General info and product updates
- Offer Benefits to Departments - Data reuse on websites, Reports
- Improve the Product
 - Respond to requests for improvements and enhancements
 - Optimize system for search engines to continue virtuous cycle

Pick and Shovel Work - repetitive, strategic and tactical, aimed at all prospective users of UCSF Profiles

Analytics will show your progress

UCSF Profiles - 145,000 visits in the last month, including:

- 10,000 from within UCSF, 22,000 from other UC campuses
- 700 from the NIH
- 800 from major pharma/biotech

93% of profiles were viewed one or more times

UCSF Clinical Trials Analytics

UCSF Clinical Trials Last Month

12,314 visits and 386 trial contacts

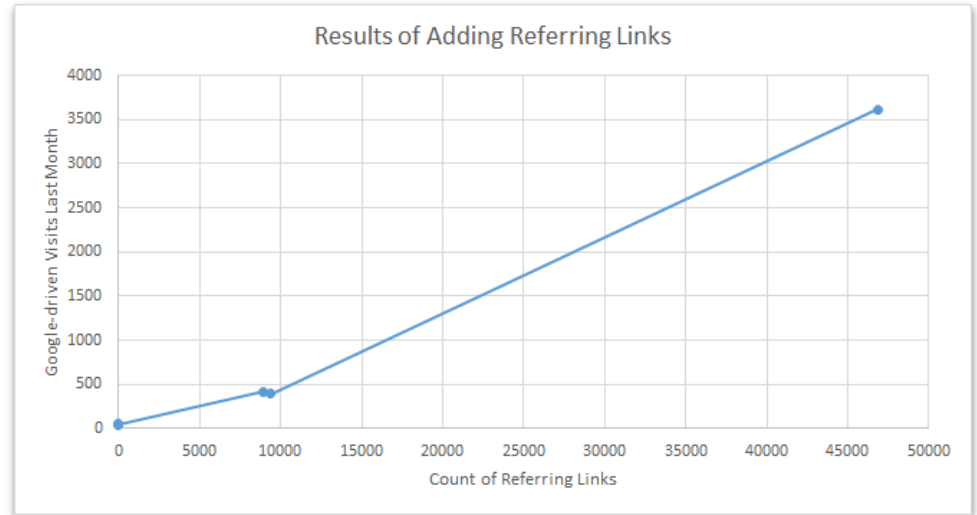

- Over half are from the SF Bay Area
- Almost all are from home ISPs
- 40% are from phone or tablets

Next steps for your clinical trials and profiles sites

- Add referring links from your Med Center and Campus sites
- More referring links = more traffic from search engines

Footer of <https://www.ucsfhealth.org/>

Next Steps for Us

- Enable data reuse for all campuses, as a means to export data for campus departments and leadership
- Integrate with Dimensions, a source for publications not in PubMed - Pilot at UCSF first

Take Home Message

- We want these products to have long, useful lives.
- There are easy, quick tasks as well as long-term tactics that will drive engagement and utility of your sites.
 - Add links from your campus and med centers!
- Start the virtuous cycle - your faculty will thank you
